Wednesday May 17th 2017	
12:30 - 18:00	Conference desk opens
13:30 - 16:30	Core of Knowledge Course - Pier Eight Room A (afternoon refreshment break included)
16:45 - 19:00	BMLA Executive Meeting - Pier Eight Room A
19:30 - 21:30	Networking drinks - Lime Restaurant and Bar

Thursday May 18th 2017	
08:30 - 17:30	Conference desk opens
09:05 - 10:20	Course 1: Hair Removal and Vascular Lesions - Pier Eight Room A (additional fee required)
09:30 - 10:45	Session 1: LLLT and LEDs - Compass Room Chair: Godfrey Town
09:30 - 10:00	INVO1 Mechanism of action and applications of LED therapy Dr Bernard Cambier, Medical Director, Roosevelt Medical Centre, Ghent, Belgium
10:00 - 10:15	<b>SELO1 Multi wavelength low level lasers transmeatal irradiation for motion sickness</b> Mr Yuke Ma, PhD student, Institute Of Crystal Material ,Shandong University
10:15 - 10:30	<b>SELO2</b> How do home use hair removal devices compare and what do I tell my patients? Dr Godfrey Town, Research Fellow University Of Wales Trinity Saint David
10:30 - 10:45	SELO3 Effects of Low-Level Laser Therapy (660nm) with Output Power of 30 &60 mW in the management of the experimentally induced oral mucositis clinical and immunohistochemical study  Dr Jamal Noori Ahmed Al-Juboori University of Baghdad
09:30 - 10:45	Session 2: Non-laser Aesthetics - Pier Eight Room B Chair: Firas al-niaimi
09:30 - 09:55	INVO2 Review of early results of Plasma upper lid blepharoplasty Mrs Sabrina Shah-Desai, Perfect Eyes Ltd
09:55 - 10:20	<b>\$\$01</b> Dermal fillers complications: aetiology, management and prevention Firas, Al-Niaimi, Sk:N Clinics London
10:20 - 10:45	SSO2 Tixel - a novel Fractional Thermo-Mechanical Action device for skin resurfacing Dr Harryono Judodihardjo, Director, Cellite Clinic Limited
10:20 - 11:40	Course 2: Tattoo Removal & Pigmentation - Pier Eight Room A (additional fee required)
10:20 - 11:15	Morning refreshments and exhibition

Thursday May 18th 2017	
11:15 - 12:30	Session 3: Laser safety - Compass Room Chair: Stan Batchelor
11:15 - 11:45	SELO4 Inherently safe (Class 1C) medical hand piece design; the development of an adapter to contains optical radiation and provide infection control of plume John Tyrer, Loughborough University
11:45 - 12:00	SELO5 Imported lasers - a cautionary tale Mr Graham Hart, YourRPA
12:00 - 12:15	<b>SELO6 New developments in laser eyewear standards</b> Mr Mike Regan, Director, Bioptica Laser Aesthetics Ltd
12:15 - 12:30	<b>SELO7 Laser beams and diffusing screens</b> Dr Donald Allan, Medical Physicist, Salford Royal NHS Foundation Trust
11:15 - 12:30	Session 4: Non-laser Aesthetics - Pier Eight Room B Chair: Firas al-niaimi
11:15 - 11:45	<b>SSO3</b> My clinical experience in the use of IPL in Cosmetic Dermatology Dr Jose Miguel Montero Garcia, Clinical Director, Discover Laser
11:45 - 12:15	SSO4 The Treatment of Acne Scarring Dr Bav Shergill, Queen Victoria Hospital NHS Foundation Trust
12:15 - 12:30	<b>SELO8</b> A novel subtype of acne scarring: papular acne scars of the nose and chin Dr Faisal Ali, St John's Institute Of Dermatology
11:45 - 13:00	Course 3: Energy based treatments - Pier Eight Room A (additional fee required)
12:30 - 14:00	Lunch and exhibition
14:00 - 15:30	Course 4: Ablative Laser Treatments (Fractional & Non-Fractional) - Pier Eight Room A (additional fee required)
14:00 - 15:30	Session 5: Nursing and Therapist Session - Compass Room Chair: Sue Walker
14:00 - 14:30	<b>\$\$05</b> Overview of extended applications of common cutaneous lasers Dr Graham Bisset, Clinical Training Consultant, Bysetics
14:30 - 14:45	SSO6 Transgender: Our role as laser specialist nurses Mrs Kerry Muggeson, Laser Specialist Nurse, Bedford Hospital NHS Trust
14:45 - 15:00	SSO7 Why Three Counties Laser & Skin Clinic?  Mrs Natalie Allen, Laser Specialist Nurse, Bedford Hospital NHS Trust
15:00 - 15:15	SSO8 Nursing Care for Paediatric Laser Patients Mrs Hilary Kennedy, Clinical Nurse Specialist, Great Ormond Street Hospital London
15:15 - 15:30	Discussion hosted by Sue Walker

14-00 - 15-30   Session 6: Laser Safety - Pier Eight Room A Chaire Harry Moseley	Thurs	Thursday May 18th 2017	
14-20 - 14-40  SEL10 Further professional reflections on being an LPA Dr Vincent Pelling, Brighton And Sussex University Hospitals Nits Trust  14-40 - 15-00  SEL11 High-speed ink fragments exit the skin during laser tattoo treatments with Q-switched lasers Mr Michael Murphy, The Boss Dermalase Training Services  SEL12 Aesthetic clinical practice in the UK - New standards and regulations Dr Godfrey Town, Research Fellow, University Of Wales Trinity Saint David  15-30 - 16-00  Refreshments and exhibition  Session 7: Laser Surgery & PDT - Compass Room Chairs: Emest Allan and Keyvan Moghissi  16-00 - 16-30  INVO3 Pulmonary metastectomy using Limax laser - a cost effective parenchymal preserving technique Mr Apostolos Nakas, Consultant Thoracic Surgeon, University Hospitals Of Leicester  16-30 - 16-45  SEL13 Photodynamic therapy Integration within multidisciplinary treatment of lung cancer; feasibility and usefulness: A review Professor Keyvan Moghissi, Woodland Avenue, Yorkshire Laser Centre  16-45 - 17-00  SEL14 Photofrin PDT with intralesional laser fibre insertion, effective treatment for thick nodular basal cell carcinomas Dr Ermest Allan, Consultant, Christie Hospital  17-00 - 17-15  SEL15 What is the optimum measurement method for monitoring patient exposure dose during daylight PDT? Dr Paul O'Mahoney, University Of Dundee  16-00 - 16-15  SS09 A brief history of the Essential Standards - Pier Eight Room A Chiari-Harry Moseley  16-30 - 16-45  SS10 SS10: Non-surgical aesthetic practice and 'competence' - the latest work of the Joint Council of Cosmetic Practitioners (ICCP) and the link with the Essential Standards by Indicatoral Consultant Crimining and Educational Consultant  16-30 - 16-45  SS11 Presenting the new BMLA Essential Standards - what are the essential Standards and why they are so important for the industry Dr Jon Exley. Lynton Lasers	14:00 - 15:30		
14-40 - 15-00  SEL11 High-speed ink fragments exit the skin during laser tattoo treatments with Q-switched lasers Mr Michael Murphy, The Boss Dermalase Training Services  15-00 - 15-20  SEL2 Aesthetic clinical practice in the UK - New standards and regulations Dr. Codfrey Town, Research Fellow, University Of Wales Trinity Saint David  15-30 - 16-00  Refreshments and exhibition  Session 7: Laser Surgery & PDT - Compass Room Charse Emes I Allan and Keywan Moghissi  16-00 - 16-30  INVO3 Pulmonary metastectomy using Limax laser - a cost effective parenchymal preserving technique Mr Apostolos Nakas, Consultant Thoracic Surgeon, University Hospitals Of Leicester  16-30 - 16-45  SEL13 Photodynamic therapy Integration within multidisciplinary treatment of lung cancer: feasibility and usefulness: A review Professor Keyvan Moghissi, Woodland Avenue, Yorkshire Laser Centre  16-45 - 17-00  SEL14 Photofrin PDT with intralesional laser fibre insertion, effective treatment for thick nodular basal cell carcinomas Dr. Emest Allan, Consultant, Christie Hospital  17-00 - 17-15  SEL15 What is the optimum measurement method for monitoring patient exposure dose during daylight PDT?  Dr Paul Of Mahoney, University Of Dundee  16-00 - 16-15  SS09 A brief history of the Essential Standards - Pier Eight Room A Chair. Harry Moseley  16-15 - 16-30  SS10 SS10: Non-surgical aesthetic practice and 'competence' - the latest work of the Joint Council of Cosmetic Practitioners UCCPl and the link with the Essential Standards - Dr. Elizabeth Raymond-Brown, Training and Educational Consultant  16-30 - 16-45  SS11 Presenting the new BMLA Essential Standards - what are the essential standards and why they are so important for the industry Dr. Jon Exley, Lynton Lasers  16-45 - 17-00  Q & A session Chaired by Prof. Harry Moseley	14:00 - 14:20		
15:00 - 15:20  SE112 Aesthetic clinical practice in the UK - New standards and regulations Dr Godfrey Town, Research Fellow, University Of Wales Trinity Saint David  15:30 - 16:00  Refreshments and exhibition 16:00 - 17:15  Session 7: Laser Surgery & PDT - Compass Room Chairs Emest Allan and Keyvan Moghissi  16:00 - 16:30  INVO3 Pulmonary metastectomy using Limax laser - a cost effective parenchymal preserving technique Mr Apostolos Nakas, Consultant Thoracic Surgeon, University Hospitals Of Leicester  16:30 - 16:45  SEL13 Photodynamic therapy Integration within multidisciplinary treatment of lung cancer: feasibility and usefulness: A review Professor Keyvan Moghissi, Woodland Avenue, Yorkshire Laser Centre  16:45 - 17:00  SEL14 Photofrin PDT with intralesional laser fibre insertion, effective treatment for thick nodular basal cell carcinomas Dr Emest Allan, Consultant, Christie Hospital  17:00 - 17:15  SEL15 What is the optimum measurement method for monitoring patient exposure dose during daylight PDT? Dr Paul O'Mahoney, University Of Dundee  Session 8: Launch of the BMLA Essential Standards - Pier Eight Room A Ghair Hany Moseley  16:00 - 16:15  SSO9 A brief history of the Essential Standards - key events which shaped the development of the standards Miss Sally Taber, Treatments You Can Trust  16:15 - 16:30  SS10 SSI0: Non-surgical aesthetic practice and 'competence' - the latest work of the Joint Council of Cosmetic Practitioners (UCCP) and the link with the Essential Standards Dr. Elizabeth Raymond Brown, Training and Educational Consultant  16:30 - 16:45  SS11 Presenting the new BMLA Essential Standards - what are the essential standards and why they are so important for the industry Dr Jon Exley, Lymton Lasers  Q & A session Chaired by Prof. Harry Moseley	14:20 - 14:40		
Dr Godfrey Town, Research Fellow, University Of Wales Trinity Saint David  15:30 - 16:00  Refreshments and exhibition  16:00 - 17:15  Session 7: Laser Surgery & PDT - Compass Room Chairs: Emest Allan and Keyvan Moghissi  16:00 - 16:30  INVO3 Pulmonary metastectomy using Limax laser - a cost effective parenchymal preserving technique Mr Apostolos Nakas, Consultant Thoracic Surgeon, University Hospitals Of Leicester  16:30 - 16:45  SEL13 Photodynamic therapy Integration within multidisciplinary treatment of lung cancer: feasibility and usefulness: A review Professor Keyvan Moghissi, Woodland Avenue, Yorkshire Laser Centre  16:45 - 17:00  SEL14 Photofrin PDT with intralesional laser fibre insertion, effective treatment for thick nodular basal cell carcinomas Dr Emest Allan, Consultant, Christie Hospital  17:00 - 17:15  SEL15 What is the optimum measurement method for monitoring patient exposure dose during daylight PDT? Dr Paul O'Mahoney, University Of Dundee  16:00 - 17:00  Session 8: Launch of the BMLA Essential Standards - Pier Eight Room A Chair: Harry Moseley  16:00 - 16:15  SSOJ A brief history of the Essential Standards - key events which shaped the development of the standards Miss Sally Taber, Treatments You Can Trust  16:15 - 16:30  SSIO SSIO: Non-surgical aesthetic practice and 'competence' - the latest work of the Joint Council of Cosmetic Practitioners (UCCP) and the link with the Essential Standards Dr. Elizabeth Raymond-Brown, Training and Educational Consultant  16:30 - 16:45  SSII Presenting the new BMLA Essential Standards - what are the essential standards and why they are so important for the industry Dr Jon Exley, Lynton Lasers  16:45 - 17:00  Q & A session Chaired by Prof. Harry Moseley	14:40 - 15:00	Q-switched lasers	
16:00 - 17:15  Session 7: Laser Surgery & PDT - Compass Room Chairs: Ernest Allan and Keyvan Moghissi  16:00 - 16:30  INV03 Pulmonary metastectomy using Limax laser - a cost effective parenchymal preserving technique Mr Apostolos Nakas, Consultant Thoracic Surgeon, University Hospitals Of Leicester  16:30 - 16:45  SEL13 Photodynamic therapy Integration within multidisciplinary treatment of lung cancer: feasibility and usefulness: A review Professor Keyvan Moghissi, Woodland Avenue, Yorkshire Laser Centre  16:45 - 17:00  SEL14 Photofrin PDT with intralesional laser fibre insertion, effective treatment for thick nodular basal cell carcinomas Dr Ernest Allan, Consultant, Christie Hospital  17:00 - 17:15  SEL15 What is the optimum measurement method for monitoring patient exposure dose during daylight PDT? Cancer: feasibility and usefulness: A review Professor Keyvan Moghissi, Woodland Avenue, Yorkshire Laser Centre  16:45 - 17:00 SEL14 Photofrin PDT with intralesional laser fibre insertion, effective treatment for thick nodular basal cell carcinomas Dr Ernest Allan, Consultant, Christie Hospital  17:00 - 17:15 SEL15 What is the optimum measurement method for monitoring patient exposure dose during daylight PDT? Dr Paul O'Mahoney, University Of Dundee  16:00 - 17:00 Session 8: Launch of the BMLA Essential Standards - Pier Eight Room A Chair: Harry Moseley  16:00 - 16:15 SS09 A brief history of the Essential Standards - key events which shaped the development of the standards Miss Sally Taber, Treatments You Can Trust  16:15 - 16:30 SS10: Non-surgical aesthetic practice and 'competence' - the latest work of the Joint Council of Cosmetic Practitioners (JCCP) and the link with the Essential Standards Dr. Elizabeth Raymond-Brown, Training and Educational Consultant  16:30 - 16:45 SS11 Presenting the new BMLA Essential Standards - what are the essential standards and why they are so important for the industry Dr Jon Exley, Lynton Lasers  16:45 - 17:00 Q & A session Chaired by Prof. Harry Moseley	16:00 - 16:30	preserving technique	
17:00 - 17:15  SEL15 What is the optimum measurement method for monitoring patient exposure dose during daylight PDT? Dr Paul O'Mahoney, University Of Dundee  16:00 - 17:00  Session 8: Launch of the BMLA Essential Standards - Pier Eight Room A Chair: Harry Moseley  16:00 - 16:15  SS09 A brief history of the Essential Standards - key events which shaped the development of the standards Miss Sally Taber, Treatments You Can Trust  16:15 - 16:30  SS10 SS10: Non-surgical aesthetic practice and 'competence' - the latest work of the Joint Council of Cosmetic Practitioners (JCCP) and the link with the Essential Standards Dr. Elizabeth Raymond-Brown, Training and Educational Consultant  16:30 - 16:45  SS11 Presenting the new BMLA Essential Standards - what are the essential standards and why they are so important for the industry Dr Jon Exley, Lynton Lasers  16:45 - 17:00  Q & A session Chaired by Prof. Harry Moseley	16:30 - 16:45	cancer; feasibility and usefulness; A review	
during daylight PDT? Dr Paul O'Mahoney, University Of Dundee  16:00 - 17:00 Session 8: Launch of the BMLA Essential Standards - Pier Eight Room A Chair: Harry Moseley  16:00 - 16:15 SS09 A brief history of the Essential Standards - key events which shaped the development of the standards Miss Sally Taber, Treatments You Can Trust  16:15 - 16:30 SS10: Non-surgical aesthetic practice and 'competence' - the latest work of the Joint Council of Cosmetic Practitioners (JCCP) and the link with the Essential Standards Dr. Elizabeth Raymond-Brown, Training and Educational Consultant  16:30 - 16:45 SS11 Presenting the new BMLA Essential Standards - what are the essential standards and why they are so important for the industry Dr Jon Exley, Lynton Lasers  16:45 - 17:00 Q & A session Chaired by Prof. Harry Moseley	16:45 - 17:00	nodular basal cell carcinomas	
Chair: Harry Moseley  16:00 - 16:15  SS09 A brief history of the Essential Standards - key events which shaped the development of the standards Miss Sally Taber, Treatments You Can Trust  16:15 - 16:30  SS10 SS10: Non-surgical aesthetic practice and 'competence' - the latest work of the Joint Council of Cosmetic Practitioners (JCCP) and the link with the Essential Standards Dr. Elizabeth Raymond-Brown, Training and Educational Consultant  16:30 - 16:45  SS11 Presenting the new BMLA Essential Standards - what are the essential standards and why they are so important for the industry Dr Jon Exley, Lynton Lasers  16:45 - 17:00  Q & A session Chaired by Prof. Harry Moseley	17:00 - 17:15	during daylight PDT?	
which shaped the development of the standards Miss Sally Taber, Treatments You Can Trust  16:15 - 16:30  SS10 SS10: Non-surgical aesthetic practice and 'competence' - the latest work of the Joint Council of Cosmetic Practitioners (JCCP) and the link with the Essential Standards Dr. Elizabeth Raymond-Brown, Training and Educational Consultant  16:30 - 16:45  SS11 Presenting the new BMLA Essential Standards - what are the essential standards and why they are so important for the industry Dr Jon Exley, Lynton Lasers  16:45 - 17:00  Q & A session Chaired by Prof. Harry Moseley	16:00 - 17:00		
Council of Cosmetic Practitioners (JCCP) and the link with the Essential Standards Dr. Elizabeth Raymond-Brown, Training and Educational Consultant  16:30 - 16:45  SS11 Presenting the new BMLA Essential Standards - what are the essential standards and why they are so important for the industry Dr Jon Exley, Lynton Lasers  Q & A session Chaired by Prof. Harry Moseley	16:00 - 16:15	which shaped the development of the standards	
why they are so important for the industry Dr Jon Exley, Lynton Lasers  16:45 - 17:00 Q & A session Chaired by Prof. Harry Moseley	16:15 - 16:30	Council of Cosmetic Practitioners (JCCP) and the link with the Essential Standards	
Q a 71 occording of an industry incodes,	16:30 - 16:45	why they are so important for the industry	
10-00 23-00 Conference dinner Imperial War Museum North (CEO. VAT)	16:45 - 17:00	Q & A session Chaired by Prof. Harry Moseley	
13-00 - 23-00 Conference uniner - imperial war wuseum worth (E30+VAL)	19:00 - 23:00	Conference dinner - Imperial War Museum North (£50+VAT)	

Friday May 19th 2017	
08:00 - 17:00	Conference desk opens
08:15 - 09:30	Session 9: The Great Debate Chair: Jon Exley
08:15 - 09:30	Session 10: Photonics + PDT - Pier Eight Room A Chairs: Colin Hopper and Donald Allan
08:15 - 08:30	SEL16 Recovering fluorescent depth information using Monte Carlo radiative transfer method and Genetic Algorithms  Mr Lewis Mcmillan, Phd Student, St Andrews University
08:30 - 08:45	SEL17 Non-invasive detection of calcium hydroxyapatite deep inside biological tissue using Transmission Raman Spectroscopy Mr Adrian Ghita, University Of Exteer
08:45 - 09:00	SEL18 Fluorescence Optical Sensor Array in Detection of Bladder Cancer Related Volatile Organic Compounds  Mr Simian Zhu, University Of Dundee
09:00 - 09:15	SEL19 Quantifying DNA Damage caused by UV exposure from sunbeds using a Monte-Carlo Radiative Transfer Model  Ms Isla Rose Mary Barnard, Phd Student, University Of St Andrews
09:15 - 09:30	SEL20 Non-invasive imaging of microvascular structure, perfusion, oxidative stress and oxygenation in patients with systemic sclerosis  Dr Mark Dickinson, Reader, University Of Manchester
09:45 - 10:30	Session 11: The Vasant Oswal Oration & Plenary Session Chair: Vishal Madan
09:45 - 10:30	INVO4 Advances in Cutaneous Rejuvenation, Efficacy and Validation: Personal Experience Dr Mario Trelles, Institut Mèdic Vilafortuny
10:30 - 11:00	Morning refreshments and exhibition
11:00 - 12:30	<b>Session 12: Skin Lasers - Compass Room</b> Chairs: Sean Lanigan and Claudia van der Lugt
11:00 - 11:25	INVO5 What not to laser? - a personal perspective Dr Richard Barlow, St Johns Institute Of Dermatology
11:25 - 11:38	<b>SEL21</b> Multiplex (PDL/NdYaG) laser treatment for Residual Infantile Hemangiomas (RIH): Evaluation of 64 patients Mr Ben Evans, Great Ormond Street Hospital
11:38 - 11:51	<b>SEL22</b> Management of erythrotelangiectatic rosacea with vascular lasers: a retrospective case series  Dr Helen Cordey, NHS Tayside
11:51 - 12:04	<b>SEL23</b> The role of lasers for children with vascular anomalies(VA) Samira Batul Syed, Great Ormond Street Hospital for Children NHS Foundation Trust
12:04 - 12:17	<b>SEL24</b> Dual wavelength laser treatment of port wine stains in children Dr Sarah Felton, Oxford NHS Hospitals

Friday May 19th 2017 (continued)	
12:17 - 12:30	SEL25 Use of Multiplex Laser for treating Non-Involuting Congenital Haemangiomas [NICH] in Children Mr Ben Evans, Great Ormond Street Hospital
11:00 - 12:30	Session 13: Biophotonics and Diagnostics Chair: Chris Dunsby
11:00 - 11:30	INVO6 Integrated multimodal spectral imaging for margin assessment during breast conserving surgery Professor Ioan Notingher, University of Nottingham
11:30 - 11:42	SFL26 Evaluation of cancer malignancy in prostate biopsies using second harmonic generation (SHG) microscopy  Ms Yuting Ling, University of Dundee
11:42 - 11:54	<b>SEL27</b> Robust low coherence interferometry based proximity sensor for medical robotics Dr Manuel Jorge Marques, Research Associate, Applied Optics Group, University Of Kent
11:54 - 12:06	SEL28 Versatile hand-held Master-Slave optical coherence tomography system for clinical diagnosis Dr Manuel Jorge Marques, Research Associate, Applied Optics Group, University Of Kent
12:06 - 12:18	SEL29 Multi-channel multi-distance broadband near-infrared spectroscopy system to measure the spatial response of cellular oxygen metabolism  Mr Phong Phan, Phd Student, University College London
12:18 - 12:30	<b>SEL30</b> The use of wearable and wireless photonics devices to measure brain activity Dr Paola Pinti, Research Associate, University College London
12:30 - 14:00	Lunch and exhibition
13:00 - 13:50	BMLA AGM - Compass Room
14:00 - 15:30	Session 14: Skin Lasers - Compass Room Chair: Richard Barlow
14:00 - 14:15	INVO7 Low Level Light Therapy (LLLT) for Pattern Hair loss Dr Bessam Farjo, Hair Restoration Surgeon, Farjo Hair Institute
14:15 - 14:30	<b>SEL31 Non Invasive Magnetic Resonance Imaging (MRI) of Ablative Fractional Lasers</b> Mr Matthew Marzetti, Pre-registration Clinical Scientist, NHS Tayside
14:30 - 14:45	<b>SEL32</b> Longer pulsewidths should be used routinely when treating 'thick' and 'thin' targets in the skin Mr Michael Murphy, The Boss, Dermalase Training Services
14:45 - 15:00	SEL33 Successful treatment of rhinophyma with CO2 laser: a case series Dr Helen Cordey, NHS Tayside
15:00 - 15:15	SEL34 Excimer Laser & Needling Techniques: New Effective Treatment of Moderate to Severe Vitiligo  Dr Mohammed Al Abadie, Consultant, The Royal Wolverhampton Nhs Trust
15:15 - 15:30	SEL35 Triple Pass Laser Therapy for Recalcitrant Facial Port Wine Stains Mr Adam Creissen, Great Ormond Street Hospital

**Compass Room** 

Friday May 19th 2017	
15:30 - 16:00	Afternoon refreshments and exhibition
14:00 - 15:30	<b>Session 15: My Problem Page - Compass Room</b> Chair: Vishal Madan
14:00 - 14:15	<b>SEL36</b> Pulsed dye laser treatment promoting antimalarial-induced facial dyspigmentation Dr Nicholas Collier, Dermatology Registrar, Salford Royal Foundation Trust
